

CHANGE IN FEDERAL IDENTIFICATION FOR ELECTRONIC DATA SYSTEMS CORPORATION

On 03/12/97, Blanket Purchase Order (BPO) No. 071B5000363 between the State and Electronic Data Systems Corporation (EDS) for EUC Hardware, Software and Service was modified to accommodate the Contractor's request to change the Federal Identification Number (FEIN) from 2-751294412 to 2-752548221. As a result of this modification, Advice of Changes (A/C), or payments could not be processed.

The following solution has been implemented to accommodate the requested FEIN change and allow any outstanding orders to be processed:

- FEIN 2-751294412 has been reactivated and will remain as the FEIN associated with BPO No. 071B5000363. OFM is adding a new status and class code to this FEIN to restrict any **New** Purchase Orders (PO) from being released. **THEREFORE, BPO NO. 071B5000363 WILL CONTINUE TO EXIST ONLY FOR AGENCIES TO PROCESS ADVICE OF CHANGE OR A PAYMENT ON AN OUTSTANDING PO.** Note: Agencies will NOT be able to modify the Header Screen (i.e., change match type) on an outstanding PO.
- BPO No. 071B5001021 has been established as a continuation of BPO No. 071B5000363 and incorporates the new FEIN #2-752548221. **ALL NEW ORDERS MUST BE RELEASED AGAINST THIS BPO.**

Orders released during the period March 12 to March 20, 1997, against BPO 071B5000363 can still be processed and paid. Using FEIN 2-752548221, you will be unable to issue Advice of Changes to orders created during the period March 12 to March 20, 1997.
